

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Adopt Resolution Approving Amendments to Improvement Agreements for Public Improvements for Reynolds Ranch Phase II, Offsite and Onsite Improvements

MEETING DATE: October 6, 2010

PREPARED BY: Public Works Director

RECOMMENDED ACTION: Adopt resolution approving amendments to the Improvement Agreements for the Public Improvements for Reynolds Ranch Phase II, offsite and onsite improvements.

BACKGROUND INFORMATION: The project is located on Harney Lane, between Stockton Street and Panzani Way, as shown on Exhibit A, and consists of roadway improvements along Harney Lane; traffic signal improvements at the intersections on Reynolds Ranch Parkway at Le Baron Blvd., Rocky Lane, and Harney Lane; and onsite public water main improvements within the Reynolds Ranch Shopping Center.

City staff secured early Council approval on August 18, 2010 of the Phase II Offsite Improvement Agreement and the Phase II Onsite Improvement Agreement to advance the Costco project. The security requirements included in those Agreements were based upon Engineer's estimates for the improvement costs. Since that time, actual contractor bids have been received and it is appropriate to amend those Agreements' security requirements based upon the bids plus a ten percent contingency.

The amendment to the Phase II Offsite Improvement Agreement revises the Faithful Performance and Labor and Materials bonding values to 110 percent and 55 percent, respectively, of the construction contract value. The amended security requirements the Faithful Performance and Labor and Materials are \$1,694,279.40 and \$847,139.70, respectively.

The amendment to the Phase II Onsite Improvement Agreement reflects a reduction in the scope of the public improvements to those only required to serve the Costco retail development and revises the security requirements similar to that described above. The second phase of onsite improvements will be constructed at a later time and will require its own improvement agreement. The onsite public improvements to be constructed during the first phase include 1,145 feet of water main, valves, and connections to existing mains. The amendment revises the Faithful Performance and Labor and Materials security requirements, based upon the construction contract value, to \$103,500 and \$51,750, respectively.

All other provisions of the Improvement Agreements remain as approved by the City Council on August 18, 2010.

In conformance with LMC 15.64.050, the fees are automatically adjusted on January 1 of each year.

At least 15 calendar days prior to the commencement of work hereunder, Developer shall notify the Public Works Director of the date fixed by Developer for commencement thereof so that City can provide inspection services.

8. Time Extension

Time is of the essence of this agreement. The City may extend the time for completion of the improvements hereunder under the terms of an addendum to this agreement which shall be approved by the City Manager. Any such extension may be granted without notice to the Developer's surety, and extensions so granted shall not relieve the surety's liability on the bond to secure the faithful performance of this agreement. The City Manager shall be the sole and final judge as to whether or not good cause has been shown to entitle Developer to an extension.

9. Record Drawings and Certifications

Prior to acceptance of the project improvements, the Developer shall have provided record drawings and certifications as described in the City of Lodi Public Improvement Design Standards.

10. Permits; Compliance with Law

Developer shall, at Developer's expense, obtain all necessary permits and licenses for the construction of such improvements, give all necessary notices and pay all fees and taxes required by law.

11. Superintendence by Developer

12. Inspection by City

Developer shall at all times maintain proper facilities and provide safe access for inspection by City to all parts of the work. Inspections will be provided during normal working hours. Developer will be billed for inspections on work performed on weekends, holidays and overtime. Developer shall also pay all additional costs incurred by City for soils and materials testing and/or inspection services required as a part of City inspection activities.

13. Contract Security

Concurrently with the execution hereof, Developer's Contractor shall furnish Improvement Security of at least 100% of the estimated cost of public improvements plus deferred fees and engineering costs of surveying, record drawings and certifications as security for the faithful performance of this agreement and repair or replacement of defective work under Paragraph 19 following; and an amount equal to at least 50% of the above costs as security for the payment of all persons performing labor and furnishing materials in connection with this agreement as more fully described in the State Subdivision Map Act.

The City has determined these security amounts to be as follows:

Labor and Materials	\$847,139.70

~~Prior to acceptance of the project improvements by the City, Developer shall furnish Warranty Security of at least 10% of the total cost of the public improvements as security for repair or replacement of defective work under Paragraph 19 following.~~ The warranty period for repair or replacement of defective work shall be two (2) years following the date of acceptance of the improvements. If any portion of the project receives partial acceptance during the course of construction, the warranty period for all required project improvements shall commence upon the date of final acceptance for the entire project.

15. Hold-Harmless Agreement

Developer hereby agrees to, and shall, hold City, its elective and appointive boards, commissions, officers, agents and employees, harmless from any liability for damage or claims for damage for personal injury, including death, as well as from claims for property damage which may arise from Developer's or Developer's contractors', subcontractors', agents' or employees' operations under this agreement, whether such operations be by Developer or by any of Developer's contractors, subcontractors, or by any one or more persons directly or indirectly employed by, or acting as agent for, Developer or any of Developer's contractors or subcontractors. Developer agrees to, and shall, defend City and its elective and appointive boards, commissions, officers, agents and employees from any suits or actions at law or in equity for damages caused, or alleged to have been caused, by reason of any of the aforesaid operations; provided as follows:

- A. That City does not, and shall not, waive any rights against Developer which it may have by reason of the aforesaid hold-harmless agreement, because of the acceptance by City, or the deposit with City by Developer, of any of the insurance policies described in Paragraph 16 hereof.

- B. That the aforesaid hold-harmless agreement by Developer shall apply to all damages and claims for damages of every kind suffered, or alleged to have been suffered, by reason of any of the aforesaid operations referred to in this paragraph, regardless of whether or not City has prepared, supplied or approved of, plans and/or specifications for the project, or regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

16. Developer's Insurance

Developer shall not commence work under this agreement until Developer shall have obtained all insurance required under this paragraph, nor shall Developer allow any contractor or subcontractor to commence work on Developer's contract or subcontract until all similar insurance required of the contractor or subcontractor shall have been so obtained. All requirements herein provided shall appear either in the body of the insurance policies or as endorsements and shall specifically bind the insurance carrier.

A. Compensation Insurance

Developer shall maintain, during the life of this agreement, Worker's Compensation Insurance for all Developer's employees employed at the site of improvement, and in case any work is sublet, Developer shall require any contractor or subcontractor similarly to provide Worker's Compensation Insurance for all contractors' or subcontractors' employees, unless such employees are covered by the protection afforded by Developer. Developer hereby indemnifies City for any damage resulting to it from failure of either Developer or any contractor or subcontractor to take out or maintain such insurance.

B. Comprehensive General and Automobile Insurance

Developer shall take out and maintain during the life of this agreement such insurance as shall insure City, its elective and appointive boards, commissions, officers, agents and employees, Developer and any contractor or subcontractor performing work covered by this agreement from claims for damages for personal injury, including death, as well as from claims for property damage which may arise on the project property, including any public streets or easements, from Developer's or any contractors' or subcontractors' operations hereunder, whether such operations be by Developer or any contractor or subcontractor or by anyone directly or indirectly employed by either Developer or any contractor or subcontractor, and the amount of such insurance shall be as follows:

\$2,000,000 Bodily Injury - Each Occurrence
\$2,000,000 Property Damage - Each Occurrence
or
\$2,000,000 Combined Single Limit

Developer must have comprehensive automobile liability only if Developer's vehicles are used on-site.

NOTE: Developer agrees and stipulates that any insurance coverage provided to the City of Lodi shall provide for a claims period following termination of coverage which is at least consistent with the claims period or statutes of limitations found in the California Tort Claims Act (California Government Code Section 810 et seq.).

“Claims made” coverage requiring the insureds to give notice of any potential liability during a time period shorter than that found in the Tort Claims Act shall be unacceptable.

A copy of the certificate of insurance with the following endorsements shall be furnished to the City:

A. Additional Named Insured Endorsement

Such insurance as is afforded by this policy shall also apply to the City of Lodi, its elected and appointed boards, commissions, officers, agents and employees as additional named insured insofar as work performed by the insured under written contract with the City of Lodi. This endorsement shall be on the form furnished by the City and shall be included with Developer’s policies.

B. Primary Insurance Endorsement

Such insurance as is afforded by the endorsement for the additional insureds shall apply as primary insurance. Any other insurance maintained by the City of Lodi or its officers and employees shall be excess only and not contributing with the insurance afforded by this endorsement.

C. Severability of Interest Clause

The term “insured” is used severally and not collectively, but the inclusion herein of more than one insured shall not operate to increase the limit of the company’s liability.

17. Evidence of Insurance

Developer shall furnish City, concurrently with the execution hereof, with satisfactory evidence of the insurance required and evidence that each carrier is required to give City at least 30 days prior notice of the cancellation or reduction in coverage of any policy during the effective period of this agreement. The address of the City of Lodi must be shown on the certificate of insurance, i.e., City of Lodi, 221 West Pine Street, Lodi, CA 95240.

18. Title to Improvements

Title to, and ownership of, all public improvements constructed hereunder by Developer shall vest absolutely in City upon completion and acceptance of such public improvements by City.

19. Repair or Reconstruction of Defective Work

If, within a period of two (2) years after final acceptance by City of the work performed under this agreement, any structure or part of any structure furnished and/or installed or constructed, or caused to be installed or constructed by Developer, or any of the work done under this agreement, including the mitigation measures for dust and erosion control, fails to fulfill any of the requirements of this agreement plans and specifications referred to herein, Developer and Developer’s Contractor surety shall, without delay and without cost to City, repair or replace or reconstruct any defective or otherwise

unsatisfactory part or parts of the work or structure. Should Developer or Developer's Contractor surety fail to act promptly or in accordance with this requirement, or should the exigencies of the case require repairs or replacements to be made before Developer can be notified, City may, at its option, make the necessary repairs or replacements or perform the necessary work, and Developer shall pay to City the actual cost of such repairs plus 15% for administration and overhead costs.

20. Repair or Replacement of City-owned Bypass Meter Assemblies

The Developer is required by the City to install bypass meter assemblies in conjunction with the installation of water mains in the City of Lodi. The City will supply these assemblies upon receipt of a deposit in the amount of \$5,000.00 for each assembly required. The purpose of the deposit is to guarantee the return of the assembly in good condition and fulfillment of the other obligations shown in the City's Policies and Procedures entitled "Metering Water Usage of New Water Mains Requiring Temporary Bypasses", a copy of which is attached hereto and made a part hereof.

21. Mud, Debris, Dust and Erosion

Developer agrees and covenants not to permit mud or other debris to be tracked from the construction site or elsewhere onto City or County streets or onto private property without express permission. Developer further agrees not to cause damage to City or County streets.

Should any mud or debris be deposited in City or County streets or any damage caused to City or County streets, the Developer shall have the same removed or repaired forthwith, and if not removed or repaired upon notice within a specified time, the City shall cause the same to be removed or repaired and the Developer shall be charged for the cost of said removal or repairs.

The Developer, Developer's contractor and/or agents shall be responsible so no dust or erosion problems are created during construction, including installation of telephone, electrical, cable television and gas facilities. Developer's responsibility for dust and erosion control shall extend to include a period of one year from the date of final acceptance by the City of the work performed under this agreement.

If a dust or erosion problem arises during development or within a period of one year from the date of final acceptance by the City of the work performed under this agreement, including but not limited to installation of telephone, electrical, cable television, and/or gas facilities, and has not, after notice, been abated by Developer within a specified period of time, the City shall cause the same to be controlled, and the Developer shall be charged with the cost of said control.

22. Fire Protection During Construction

Fire protection facilities approved by the Fire Chief, including all-weather access road and an approved water supply capable of supplying the required fire flow, shall be installed and made serviceable in accordance with the City fire code prior to and during the time of building construction. The above may be modified when alternate methods of protection approved by the Fire Chief are provided.

23. Protection of Existing Improvements

Damage to any existing improvements or private or public utility lines installed or being installed which damage occurs during the onsite and offsite construction required of Developer shall be the absolute responsibility and liability of Developer. In other words, it shall be the Developer's responsibility to pay for damage to existing improvements and public or private utilities within the development. Damage to any existing facilities outside

the limits of the project area damaged as part of the construction of the required project improvements is also the Developer's responsibility.

24. Dwelling Occupancy

The City will not allow occupancy of any building or structure within the project until all, public improvements have been approved and accepted by the Public Works Department per established City policy and other requirements of the City codes have been met. If building is started prior to acceptance of the improvements, it is the Developer's responsibility to inform all prospective purchasers that occupancy will not be permitted until said fees are paid and public improvements are so accepted.

25. Developer Not Agent of City

Neither Developer nor any of Developer's agents or contractors are or shall be considered to be agents of City in connection with the performance of Developer's obligations under this agreement.

26. Notice of Breach and Default

If Developer refuses or fails to obtain prosecution of the work, or any severable part thereof, with such diligence as will insure its completion within the time specified, or any extensions thereof, or fails to obtain completion of said work within such time, or if the Developer should be adjudged bankrupt, or Developer should make a general assignment for the benefit of Developer's creditors, or if a receiver should be appointed in the event of Developer's insolvency, or if Developer or any of Developer's contractors, subcontractors, agents or employees, should violate any of the provisions of this agreement, the Public Works Director or City Council may serve written notice upon Developer and Developer's Contractor's surety of breach of this agreement, or any portion thereof, and the default of Developer.

27. Breach of Agreement; Performance by Surety or City

In the event of any such notice, Developer's Contractor's surety shall have the duty to take over and complete the work and the improvements herein specified; provided however, that if the surety, within five days after the serving upon it of such notice of breach, does not give City written notice of its intention to take over the performance of the contract, and does not commence performance thereof within 5 days after notice to City of such election, City may take over the work and prosecute the same to completion, by contract or by any other method City may deem advisable, for the account and at the expense of Developer, and Developer's Contractor's surety shall be liable to City for any excess cost or damage occasioned City thereby; and, in such event, City, without liability for so doing, may take possession of, and utilize in completing the work, such materials, appliances, plant and other property belonging to Developer as may be on the site of the work and necessary therefor.

28. Notices

All notices herein required shall be in writing, and delivered in person or sent by registered mail, postage prepaid.

Developer shall have the deeds executed by the property owners, notarized and returned to the City for recordation.

6. Work; Time for Commencement and Performance

Developer shall, within 365 calendar days from the date of this agreement, perform or cause to be performed all work and/or improvements described under this agreement. At least 15 calendar days prior to the commencement of work hereunder, Developer shall notify the Public Works Director of the date fixed by Developer for commencement thereof so that City can provide inspection services.

7. Time Extension

Time is of the essence of this agreement. The City may extend the time for completion of the improvements hereunder under the terms of an addendum to this agreement which shall be approved by the City Manager. Any such extension may be granted without notice to the Developer's surety, and extensions so granted shall not relieve the surety's liability on the bond to secure the faithful performance of this agreement. The City Manager shall be the sole and final judge as to whether or not good cause has been shown to entitle Developer to an extension.

8. Record Drawings and Certifications

Prior to acceptance of the project improvements, the Developer shall have provided record drawings and certifications as described in the City of Lodi Public Improvement Design Standards.

9. Permits; Compliance with Law

Developer shall, at Developer's expense, obtain all necessary permits and licenses for the construction of such improvements, give all necessary notices and pay all fees and taxes required by law.

10. Superintendence by Developer

Developer shall give personal superintendence to the work on said improvement, or have a competent agent, foreman or superintendent, satisfactory to the Public Works Director, on the work at all times during progress, with authority to act for Developer.

11. Inspection by City

Developer shall at all times maintain proper facilities and provide safe access for inspection by City to all parts of the work. Inspections will be provided during normal working hours. Developer will be billed for inspections on work performed on weekends, holidays and overtime. Developer shall also pay all additional costs incurred by City for soils and materials testing and/or inspection services required as a part of City inspection activities.

12. Contract Security

Concurrently with the execution hereof, Developer's Contractor shall furnish Improvement Security of at least 100% of the estimated cost of public improvements plus deferred fees and engineering costs of surveying, record drawings and certifications as security for the faithful performance of this agreement and repair or replacement of defective work under Paragraph 16 following; and an amount equal to at least 50% of the above costs as security for the payment of all persons performing labor and furnishing materials in connection with this agreement as more fully described in the State Subdivision Map Act.

The City has determined these security amounts for Phase 2A to be as follows:

Faithful Performance	\$103,500.00
Labor and Materials	\$51,750.00

13. Warranty Security

~~Prior to acceptance of the project improvements by the City, Developer shall furnish Warranty Security of at least 10% of the total cost of the public improvements as security for repair or replacement of defective work under Paragraph 18 following. The warranty period for repair or replacement of defective work shall be two (2) years following the date of acceptance of the improvements. If any portion of the project receives partial acceptance during the course of construction, the warranty period for all required project improvements shall commence upon the date of final acceptance for the entire project.~~

14. Hold-Harmless Agreement

Developer hereby agrees to, and shall, hold City, its elective and appointive boards, commissions, officers, agents and employees, harmless from any liability for damage or claims for damage for personal injury, including death, as well as from claims for property damage which may arise from Developer's or Developer's contractors', subcontractors', agents' or employees' operations under this agreement, whether such operations be by Developer or by any of Developer's contractors, subcontractors, or by any one or more persons directly or indirectly employed by, or acting as agent for, Developer or any of Developer's contractors or subcontractors. Developer agrees to, and shall, defend City and its elective and appointive boards, commissions, officers, agents and employees from any suits or actions at law or in equity for damages caused, or alleged to have been caused, by reason of any of the aforesaid operations; provided as follows:

- A. That City does not, and shall not, waive any rights against Developer which it may have by reason of the aforesaid hold-harmless agreement, because of the acceptance by City, or the deposit with City by Developer, of any of the insurance policies described in Paragraph 15 hereof.

- B. That the aforesaid hold-harmless agreement by Developer shall apply to all damages and claims for damages of every kind suffered, or alleged to have been suffered, by reason of any of the aforesaid operations referred to in this paragraph, regardless of whether or not City has prepared, supplied or approved of, plans and/or specifications for the project, or regardless of whether or not such insurance policies shall have been determined to be applicable to any of such damages or claims for damages.

15. Developer's Insurance

Developer shall not commence work under this agreement until Developer shall have obtained all insurance required under this paragraph, nor shall Developer allow any contractor or subcontractor to commence work on Developer's contract or subcontract until all similar insurance required of the contractor or subcontractor shall have been so obtained. All requirements herein provided shall appear either in the body of the insurance policies or as endorsements and shall specifically bind the insurance carrier.

A. Compensation Insurance

Developer shall maintain, during the life of this agreement, Worker's Compensation Insurance for all Developer's employees employed at the site of improvement, and in case any work is sublet, Developer shall require any contractor or subcontractor similarly to provide Worker's Compensation Insurance for all contractors' or subcontractors' employees, unless such employees are covered by the protection afforded by Developer. Developer hereby indemnifies City for any damage resulting to it from failure of either Developer or any contractor or subcontractor to take out or maintain such insurance.

B. Comprehensive General and Automobile Insurance

Developer shall take out and maintain during the life of this agreement such insurance as shall insure City, its elective and appointive boards, commissions, officers, agents and employees, Developer and any contractor or subcontractor performing work covered by this agreement from claims for damages for personal injury, including death, as well as from claims for property damage which may arise on the project property, including any public streets or easements, from Developer's or any contractors' or subcontractors' operations hereunder, whether such operations be by Developer or any contractor or subcontractor or by anyone directly or indirectly employed by either Developer or any contractor or subcontractor, and the amount of such insurance shall be as follows:

1. COMPREHENSIVE GENERAL LIABILITY

\$2,000,000 Bodily Injury - Each Occurrence/Aggregate
\$2,000,000 Property Damage - Each Occurrence/Aggregate
or
\$2,000,000 Combined Single Limit

2. COMPREHENSIVE AUTOMOBILE LIABILITY

\$2,000,000 Bodily Injury - Each Person
\$2,000,000 Bodily Injury - Each Occurrence
\$2,000,000 Property Damage - Each Occurrence
or
\$2,000,000 Combined Single Limit

Developer must have comprehensive automobile liability only if Developer's vehicles are used on-site.

NOTE: Developer agrees and stipulates that any insurance coverage provided to the City of Lodi shall provide for a claims period following termination of coverage which is at least consistent with the claims period or statutes of limitations found in the California Tort Claims Act (California Government Code Section 810 et seq.).

"Claims made" coverage requiring the insureds to give notice of any potential liability during a time period shorter than that found in the Tort Claims Act shall be unacceptable.

A copy of the certificate of insurance with the following endorsements shall be furnished to the City:

A. Additional Named Insured Endorsement

Such insurance as is afforded by this policy shall also apply to the City of Lodi, its elected and appointed boards, commissions, officers, agents and employees as additional named insured insofar as work performed by the insured under written contract with the City of Lodi. This endorsement shall be on the form furnished by the City and shall be included with Developer's policies.

B. Primary Insurance Endorsement

Such insurance as is afforded by the endorsement for the additional insureds shall apply as primary insurance. Any other insurance maintained by the City of Lodi or its officers and employees shall be excess only and not contributing with the insurance afforded by this endorsement.

C. Severability of Interest Clause

The term "insured" is used severally and not collectively, but the inclusion herein of more than one insured shall not operate to increase the limit of the company's liability.

16. Evidence of Insurance

Developer shall furnish City, concurrently with the execution hereof, with satisfactory evidence of the insurance required and evidence that each carrier is required to give City at least 30 days prior notice of the cancellation or reduction in coverage of any policy during the effective period of this agreement. The address of the City of Lodi must be shown on the certificate of insurance, i.e., City of Lodi, 221 West Pine Street, Lodi, CA 95240.

17. Title to Improvements

Title to, and ownership of, all public improvements constructed hereunder by Developer shall vest absolutely in City upon completion and acceptance of such public improvements by City.

18. Repair or Reconstruction of Defective Work

If, within a period of two (2) years after final acceptance by City of the work performed under this agreement, any structure or part of any structure furnished and/or installed or constructed, or caused to be installed or constructed by Developer, or any of the work done under this agreement, including the mitigation measures for dust and erosion control, fails to fulfill any of the requirements of this agreement plans and specifications referred to herein, Developer and Developer's Contractor surety shall, without delay and without cost to City, repair or replace or reconstruct any defective or otherwise

unsatisfactory part or parts of the work or structure. Should Developer or Developer's Contractor surety fail to act promptly or in accordance with this requirement, or should the exigencies of the case require repairs or replacements to be made before Developer can be notified, City may, at its option, make the necessary repairs or replacements or perform the necessary work, and Developer shall pay to City the actual cost of such repairs plus 15% for administration and overhead costs.

19. Repair or Replacement of City-owned Bypass Meter Assemblies

The Developer is required by the City to install bypass meter assemblies in conjunction with the installation of water mains in the City of Lodi. The City will supply these assemblies upon receipt of a deposit in the amount of \$5,000.00 for each assembly required. The purpose of the deposit is to guarantee the return of the assembly in good condition and fulfillment of the other obligations shown in the City's Policies and Procedures entitled "Metering Water Usage of New Water Mains Requiring Temporary Bypasses", a copy of which is attached hereto and made a part hereof.

20. Mud, Debris, Dust and Erosion

Developer agrees and covenants not to permit mud or other debris to be tracked from the construction site or elsewhere onto City or County streets or onto private property without express permission. Developer further agrees not to cause damage to City or County streets.

Should any mud or debris be deposited in City or County streets or any damage caused to City or County streets, the Developer shall have the same removed or repaired forthwith, and if not removed or repaired upon notice within a specified time, the City shall cause the same to be removed or repaired and the Developer shall be charged for the cost of said removal or repairs.

The Developer, Developer's contractor and/or agents shall be responsible so no dust or erosion problems are created during construction, including installation of telephone, electrical, cable television and gas facilities. Developer's responsibility for dust and erosion control shall extend to include a period of one year from the date of final acceptance by the City of the work performed under this agreement.

If a dust or erosion problem arises during development or within a period of one year from the date of final acceptance by the City of the work performed under this agreement, including but not limited to installation of telephone, electrical, cable television, and/or gas facilities, and has not, after notice, been abated by Developer within a specified period of time, the City shall cause the same to be controlled, and the Developer shall be charged with the cost of said control.

21. Fire Protection During Construction

Fire protection facilities approved by the Fire Chief, including all-weather access road and an approved water supply capable of supplying the required fire flow, shall be installed and made serviceable in accordance with the City fire code prior to and during the time of building construction. The above may be modified when alternate methods of protection approved by the Fire Chief are provided.

22. Protection of Existing Improvements

Damage to any existing improvements or private or public utility lines installed or being installed which damage occurs during the onsite and offsite construction required of Developer shall be the absolute responsibility and liability of Developer. In other words, it shall be the Developer's responsibility to pay for damage to existing improvements and public or private utilities within the development. Damage to any existing facilities outside

the limits of the project area damaged as part of the construction of the required project improvements is also the Developer's responsibility.

23. Dwelling Occupancy

The City will not allow occupancy of any building or structure within the project until all public improvements have been approved and accepted by the Public Works Department per established City policy and other requirements of the City codes have been met. If building is started prior to acceptance of the improvements, it is the Developer's responsibility to inform all prospective purchasers that occupancy will not be permitted until said fees are paid and public improvements are so accepted.

24. Developer Not Agent of City

Neither Developer nor any of Developer's agents or contractors are or shall be considered to be agents of City in connection with the performance of Developer's obligations under this agreement.

25. Notice of Breach and Default

If Developer refuses or fails to obtain prosecution of the work, or any severable part thereof, with such diligence as will insure its completion within the time specified, or any extensions thereof, or fails to obtain completion of said work within such time, or if the Developer should be adjudged bankrupt, or Developer should make a general assignment for the benefit of Developer's creditors, or if a receiver should be appointed in the event of Developer's insolvency, or if Developer or any of Developer's contractors, subcontractors, agents or employees, should violate any of the provisions of this agreement, the Public Works Director or City Council may serve written notice upon Developer and Developer's Contractor's surety of breach of this agreement, or any portion thereof, and the default of Developer.

26. Breach of Agreement; Performance by Surety or City

In the event of any such notice, Developer's Contractor's surety shall have the duty to take over and complete the work and the improvements herein specified; provided however, that if the surety, within five days after the serving upon it of such notice of breach, does not give City written notice of its intention to take over the performance of the contract, and does not commence performance thereof within 5 days after notice to City of such election, City may take over the work and prosecute the same to completion, by contract or by any other method City may deem advisable, for the account and at the expense of Developer, and Developer's Contractor's surety shall be liable to City for any excess cost or damage occasioned City thereby; and, in such event, City, without liability for so doing, may take possession of, and utilize in completing the work, such materials, appliances, plant and other property belonging to Developer as may be on the site of the work and necessary therefor.

27. Notices

All notices herein required shall be in writing, and delivered in person or sent by registered mail, postage prepaid.
